# Design Bootcamp

Brochure 2025

Starting : 9th October, 2025

# About

This Bootcamp is built for absolute beginners to intermediate learners who want to learn UI/UX Design, build a strong portfolio, and step confidently into global opportunities.

Starting : 9th October, 2025

# Why Join Us?

## Community First

Our Bootcamp is more more than lessons, it's about people. You will collaborate on projects, exchange ideas, and build lasting networks that go beyond the Bootcamp.

## Career Readiness

From your first wireframe to your final capstone, everything is designed to prepare you for jobs, freelancing, and global tech opportunities.

## Live Classes, Real Interaction

Learn directly from your instructor and ask questions in real-time. No pre-recorded boredom. You get instant answers, guidance, and motivation.

## Practical & Project-Based

Every lesson ends with real-world assignments that push you to practice, apply what you've learned, and build portfolio-ready projects you can show to employers.

## Global Skills

Learn world-class design methods, tools, and strategies that prepare you to work and thrive anywhere in the world.

## AI-Augmented Design

We teach you how to work smarter by blending human creativity with cutting-edge AI, so your designs stand out in today's market.
